STRATEGIES ADOPTED

Promotions and offers

- FMCG companies are trying to influence consumers with intelligent deals.
- Firms like ITC offers combo deals to the consumers. For example, in the case of soaps and cosmetics; 4 soap cases are offered at the price of 3, selling the range of deodorants for men and women at a discounted price.
- Amazon India is planning to invest significantly over the coming months for expanding its grocery and food business, launching more products and categories and forming new partnerships with huge grocery and supermarket chains.
- In May 2018, Amazon India targets to capture 100 million customers in the next 5 years by providing more features in Prime and Alexa.

Research online Purchase offline

- The internet enables consumers to make their own research on the kind of products or commodities they want to purchase. 1 in 3 FMCG shoppers goes online 1st and then to the stores.
- About 43 per cent of new car-buyers in cities select the model online and purchase it from dealer.

New product launches

- Marico's Coco Soul introduces a range of three 100 per cent natural-infused oil variants.
- India's first kids cooking oil launched by Mother Sparsh in 2019.
- In June 2019, ITC launches dairy beverage range "Sunfeast Wonderz Milk" in four variants
- In May 2019, Naturell (India) Pvt Ltd, innovator of power snacking launched RiteBite Max protein chips
- In November 2019, Santoor launched Santoor Deo pocket perfumes exclusively for West Bengal.

Expansion

- In November 2019, ITC Ltd acquired 33.42 per cent stake in Delectable Technologies, which is a vending machine start-up.
- Nestle plans to invest Rs 700 crore (US\$ 100.16 million) to open a new plant in Sanand for Maggi
- In February 2019 India's leading FMCG Contract Manufacturer Hindustan Foods Limited received an investment of US\$ 22 million from Convergent Finance LLP for its expansion.
- Dabur to invest Rs 250-300 crore (US\$ 37.29-44.75 million) in FY19 for capacity expansion and is also looking for acquisitions in the domestic market.

Source: AC Nielsen, News Article

Customisation

- Product Flanking: Introduction of different combinations of products at different prices, to cover as many market segments as possible.
- Emami, has decided to rework on its overseas strategy by planning manufacturing and acquisitions in overseas markets. The company plans to re-work on its product portfolio by getting into new categories with higher buying preference and revamp its distribution networks.

Green initiatives to lower costs

- FMCG companies are looking to invest in energy efficient plants to benefit the society and lower costs in the long term.
- HUL fulfils 80 per cent of its power requirement for its Sumerpur plant from solar energy. The company has been able to reduce the carbon footprint of its manufacturing plants by 13 per cent in FY17.

Joint Venture

- In August 2018, Fonterra announced a joint venture with Future Consumer Ltd which will produce a range of consumer and foodservice dairy products.

Analytics

- Hindustan Unilever Ltd (HUL) implemented a transformational programme called Connected 4 Growth (C4G) to help drive business growth by increased speed to market, faster decision making, localised and swifter innovation.
- Patanjali uses Oracle and SAP for Enterprise Resource Planning (ERP), they will further standardise the application on SAP. It plans to use machine learning for quality control and product enhancement. They are also in talks with Net App for big data solution.

Product/ Category Expansion

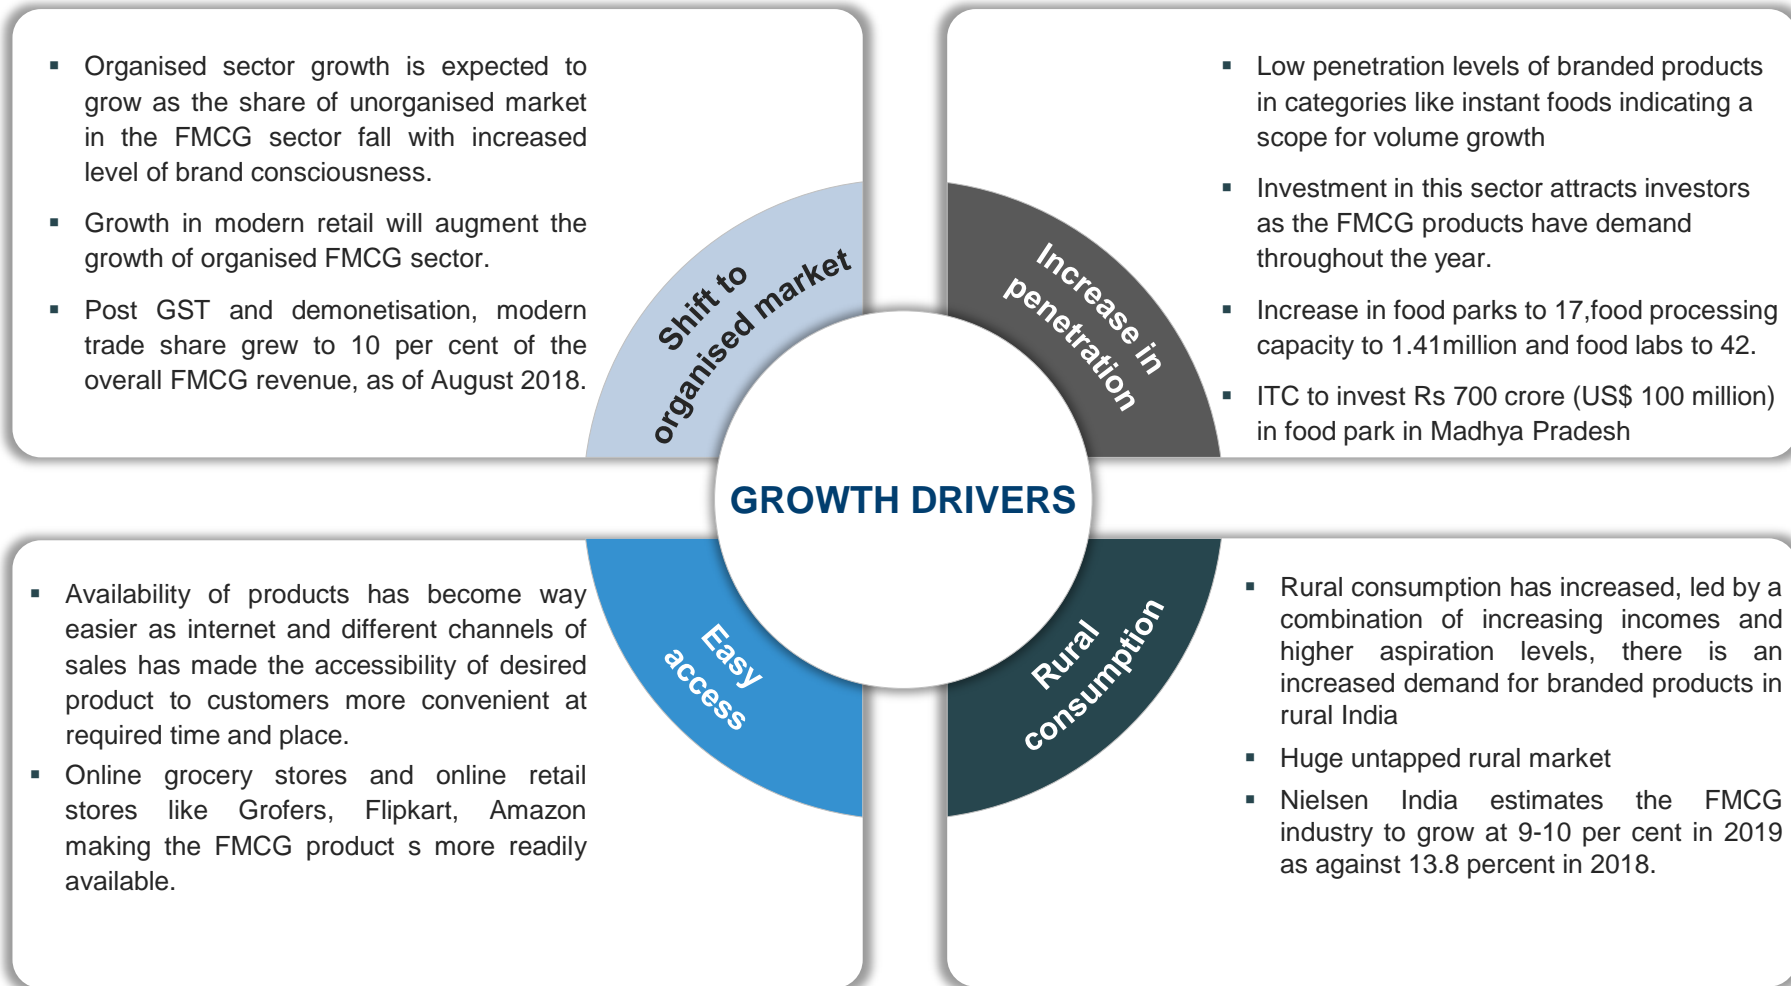

- Nestle India is planning to expand aggressively in the Indian market by launching two to three dozen new products in existing and new product categories over the next few years,.

GROWTH DRIVERS

GROWTH DRIVERS FOR INDIA'S FMCG SECTOR

Note: GST: Goods and Services Tax

Source: Dabur, Nielsen

HIGHER INCOMES AID GROWTH IN URBAN AND RURAL MARKETS

- Incomes have risen at a brisk pace in India and will continue rising given the country's strong economic growth prospects. According to IMF, nominal per capita income is estimated to grow at a CAGR of 4.94 per cent during 2010-19F.
- India's GDP per capita at current prices is expected to increase from US\$ 1,481.56 in 2012 to US\$ 3,277.28 in 2024.
- An important consequence of rising incomes is growing appetite for premium products, primarily in the urban segment.
- As the proportion of 'working age population' in total population increases, per capita income and GDP are expected to surge.

Note: *Estimates after 2013

Source: IMF World Economic Outlook Database April 2019

Union Budget 2019-20

- The Government of India has provided a full tax rebate for an income up to Rs 5 lakh (US\$ 6,930), which is expected to boost disposable income in the hands of the common people.

Goods and Service Tax (GST)

- The rate of GST on services lies between 0-18 per cent and on goods lies between 0-28 per cent.
- Major consumer product manufacturing companies like PepsiCo, Dabur, Hindustan Unilever etc. are aligning their supply chains, IT infrastructure and warehousing systems ahead of unified GST regime, to facilitate seamless interstate movement of goods.
- Prices of commodities in the FMCG sector, like soaps, shampoo, detergents, biscuits, savory snacks etc. decreased after the implementation of GST, leading to a 3-8 per cent decrease in prices of goods at modern retail stores. The GST is expected to transform logistics in the FMCG sector into a modern and efficient model as all major corporations are remodeling their operations into larger logistics and warehousing.
- Warehousing cost for FMCG companies is estimated to fall by 25-30 per cent backed by the implementation of the GST. The number of warehouses will decrease from 45-50 to 25-30 and the size of warehouses will become larger.
- The Goods and Services Tax (GST) is beneficial for the FMCG industry as many of the FMCG products such as Soap, Toothpaste and Hair oil now come under 18 per cent tax bracket against the previous 23-24 per cent rate . Also rates on food products and hygiene products have been reduced to 0-5 per cent and 12-18 per cent, respectively.

Food Security Bill (FSB)

- FSB would reduce prices of food grains for Below Poverty Line (BPL) households, allowing them to spend resources on other goods and services, including FMCG products.
- This is expected to trigger higher consumption spends, particularly in rural India, which is an important market for most FMCG companies.

POLICY AND REGULATORY FRAMEWORK

FDI in organised retail

- The government approved 51 per cent FDI in multi-brand retail in 2006, which will boost the nascent organised retail market in the country.
- It also allowed 100 per cent FDI in the cash and carry segment and in single-brand retail.

SETU Scheme

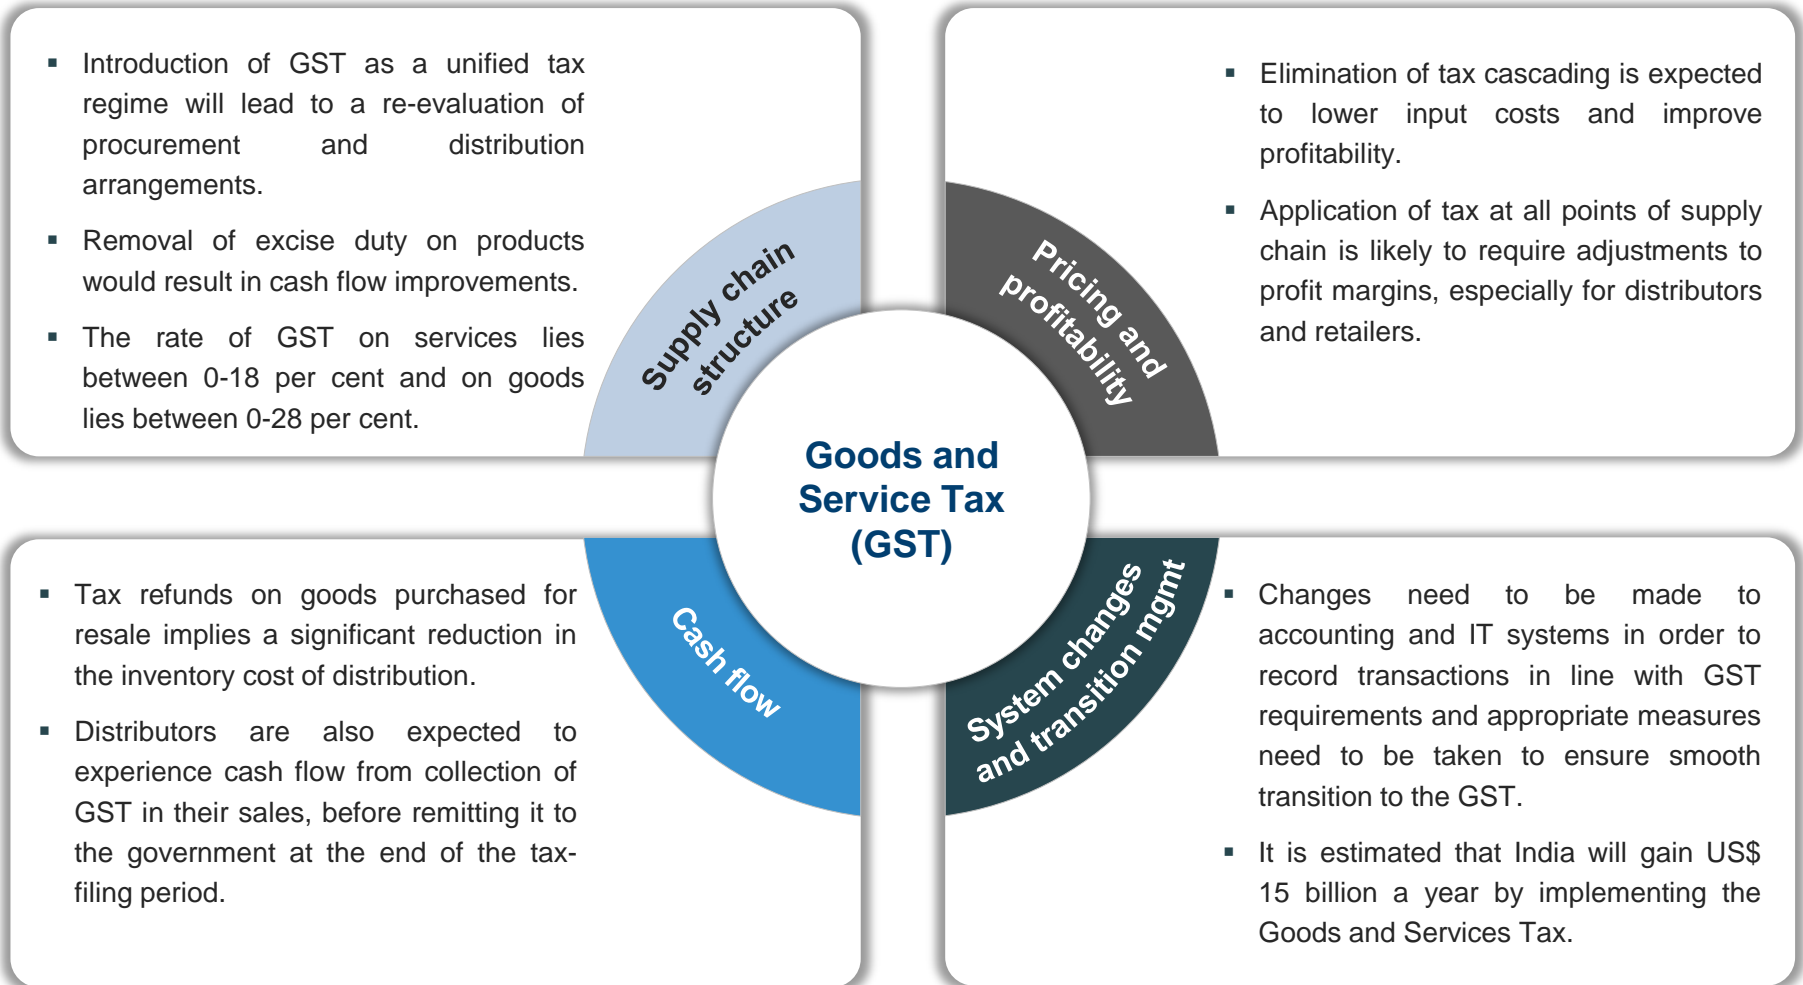

- Government has initiated Self Employment and Talent Utilisation (SETU) scheme to boost young entrepreneurs. Government has invested US\$ 163.73 million for this scheme.

Relaxation of license rules

- Industrial license is not required for almost all food and agro-processing industries, barring certain items such as beer, potable alcohol and wines, cane sugar and hydrogenated animal fats and oils as well as items reserved for exclusive manufacture in the small-scale sector.

NEW GOODS AND SERVICE TAX (GST) WOULD SIMPLIFY TAX STRUCTURE

Source: GST India

BOOSTS IN FDI INFLOWS AND INVESTMENTS

- 100 per cent FDI is allowed in food processing and single-brand retail and 51 per cent in multi-brand retail.
- This would bolster employment and supply chains, and also provide high visibility for FMCG brands in organised retail markets, bolstering consumer spending and encouraging more product launches.
- The sector witnessed healthy FDI inflows of US\$ 15.55 billion during April 2000-September 2019.
- Within FMCG, food processing was the largest recipient; its share was 62.03 per cent.
- Investment intentions, related to FMCG sector, arising from paper pulp, sugar, fermentation, food processing, vegetable oils and vanaspati, soaps, cosmetics and toiletries industries, worth Rs 19,846 crore (US\$ 2.84 billion) were implemented up to November 2019.

OPPORTUNITIES

GROWTH OPPORTUNITIES IN THE INDIAN FMCG INDUSTRY

Rural Market	<ul style="list-style-type: none">▪ Leading players of consumer products have a strong distribution network in rural India; they also stand to gain from the contribution of technological advances like internet and e-commerce to better logistics.▪ Rural FMCG market size is expected to touch US\$ 220 billion by 2025.
Innovative products	<ul style="list-style-type: none">▪ Indian consumers are highly adaptable to new and innovative products. For instance there has been an easy acceptance of men's fairness creams, flavoured yoghurt, cuppa mania noodles, gel based facial bleach, drinking yogurt, sugar free Chyawanprash.
Premium products	<ul style="list-style-type: none">▪ With the rise in disposable incomes, mid and high-income consumers in urban areas have shifted their purchase trend from essential to premium products.▪ Premium brands are manufacturing smaller packs of premium products. Example: Dove soap is available in 50g packaging.▪ Nestle is looking to expand its portfolio in premium durables cereals, pet care, coffee, and skin health accessing the potential in India.
Sourcing base	<ul style="list-style-type: none">▪ Indian and multinational FMCG players can leverage India as a strategic sourcing hub for cost-competitive product development and manufacturing to cater to international markets.
Penetration	<ul style="list-style-type: none">▪ Low penetration levels offer room for growth across consumption categories.▪ Major players are focusing on rural markets to increase their penetration in those areas.
Online FMCG	<ul style="list-style-type: none">▪ It is estimated that 40 per cent of all FMCG purchases in India will be online by 2020, thereby making it a US\$ 5-6 billion business opportunity.
Start-up Ventures	<ul style="list-style-type: none">▪ In May 2018, RP-Sanjiv Goenka Group created a Rs 1 billion (US\$ 14.92 million) venture capital fund to invest in FMCG start-ups.
