India’s Gross Domestic Product (GDP) at constant market price in the second quarter, that is, from July-September (Q2) of 2017-18 was at 6.3 as compared to 7.5 per cent in the corresponding period of the previous year, as per the Central Statistical Organization. The Economic Survey tabled in Indian Parliament on Jan 29 said GDP growth to be 6.75% in FY2017-18, making India the fastest growing major economies in the world. Economic growth is projected to strengthen to above 7%, gradually recovering from the transitory adverse impact of rolling out the Goods and Services Tax (GST) and measures to choke off the black economy, including demonetisation. In the longer run, the GST will boost corporate investment, productivity and growth by creating a single market and reducing the cost of capital equipment. Investment will be further supported by the plan to recapitalise public banks and by the new road plan.

Corporate earnings in India are expected to grow by over 20 per cent in FY 2017-18 supported by normalisation of profits, especially in sectors like automobiles and banks, according to Bloomberg consensus.

The tax collection figures between April-June 2017 Quarter showed an increase in Net Indirect taxes by 30.8 per cent and an increase in Net Direct Taxes by 24.79 per cent year-on-year, indicating a steady trend of healthy growth.
